DCSD HOPE FORM

GEORGIA HOPE SCHOLARSHIP ELIGIBILITY

The Georgia HOPE Scholarship requires a 3.0 grade point average (GPA) of 3.0 in core courses. These courses include those that count as core requirements and those that count as core electives. The GPA utilized to determine HOPE eligibility is calculated by the Georgia Student Finance Commission and may differ from the grade point average calculated by the DeKalb County School System. The grade point average listed on the DeKalb County transcript is not the HOPE eligible grade point average.

All parents and students are encouraged to access Georgia Futures (www.gafutures.org) for questions regarding HOPE eligibility requirements and courses included in the calculation of the grade point average utilized by the Georgia Student Finance Commission for eligibility.

We understand that the DeKalb County School System does not calculate the final grade point average (GPA) for HOPE Eligibility. Signatures below indicate this information has been shared with us by the high school counselor.
