

## AP Calculus Summer Assignment

I want to do something a little different this year. I want you to go to the following website and work through two different units. There are review problems to work and videos to guide you. Since all the answers are given there will be a 20 question quiz on day one to check for understanding.

So go to: <http://precalculus.flippedmath.com/>

Go to courses: PreCalculus

You are responsible for the following units:

Unit One: Intro Skills

Unit Four: Functions Algebra.

Good-Luck and enjoy your summer.

Sturken
