WHAT'S NEW ?

STUDENT TESTING RULE

(160-3-1-.07) UPDATE AP/IB AMENDMENT

The State Board of Education approved an AP/IB amendment to the testing rule (160-3-1-.07) at its November 7th meeting. **The amendment exempts a student from taking the end-of-course assessment for a core subject course if he or she passes an Advanced Placement (AP) or International Baccalaureate (IB) course in certain related courses.**

According to Legal and Policy Divisions of the GaDOE, amendments to SBOE rules take effect 20 days after adoption. Therefore, students completing and passing eligible AP/IB courses this winter would be exempt from the EOC. **Districts will need to be in compliance with the testing rule in effect at the time students are completing courses and final grades are being issued.**

Students enrolled and passing AP/IB American Literature, U.S. History, and Economics are exempt from the EOC. All students enrolled in Ninth Grade Literature and Composition, Algebra I, Coordinate Algebra, and Biology **MUST** take the EOC. As there are currently no AP/IB courses in Geometry, Analytic Geometry, or Physical Science, students enrolled in those EOC-required courses will also take the EOC.

CCRPI will utilize the same business rules as the dual enrollment exemption:

- Students earning an A (90-100) shall count as “Distinguished Learners;”
- Students earning a B (80-89) or C (70-79) shall count as “Proficient Learners;” and
- Students earning less than a C (70) shall count as “Beginning Learners” in CCRPI indicators that utilize achievement levels.

Students must pass the AP/IB course to exempt the EOC; however, if the AP/IB course is failed, the student will take the EOC when the required credit is earned through taking the actual EOC course.
