Critical Thinking Questions

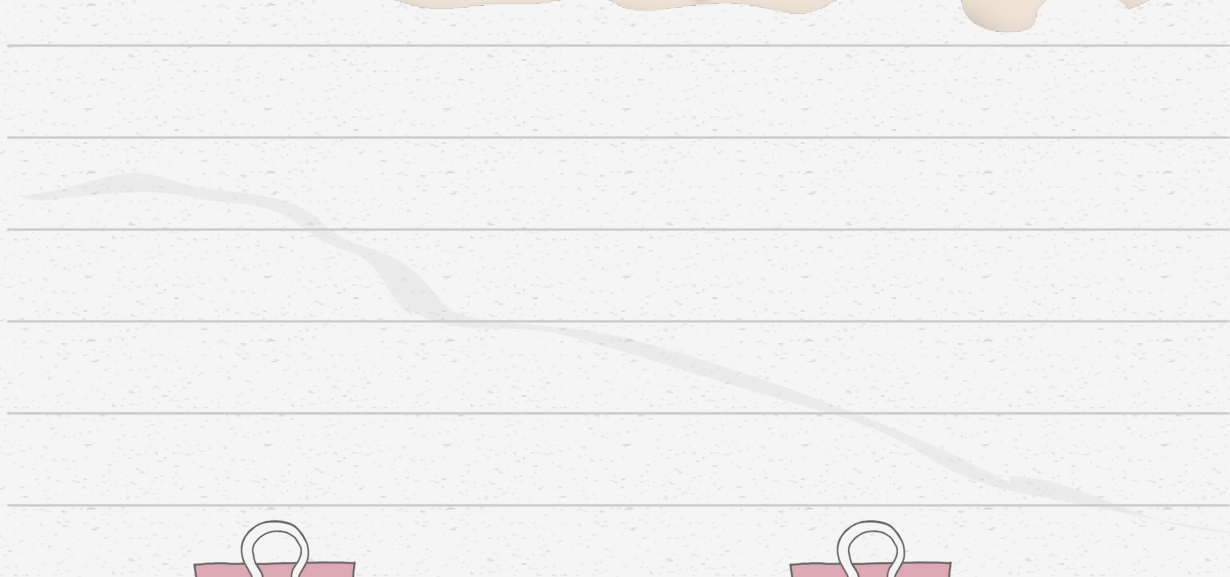

Did any country placements surprise you?
Why or why not?

In what ways do the author's experiences in
Level 3 and Level 4 countries differ from
what might be expected based on the travel
advisories?

How can travelers help to break down
stereotypes and misconceptions about the
countries they visit?

***Stereotype:** A simple idea about a group of people that is not based on facts.
For example: "All librarians wear glasses."
This is a stereotype because it is a general idea people might have about librarians, but it is not true for every one.

***Misconception:** A wrong belief about something.
For example: "Bats are blind."
This is a misconception because most bats can see, even though they use echolocation (listening to sound waves and echoes) to get around.
